EDUCATION

2023-2026

MADURAI KAMARAJ UNIVERSITY

Bachelor of Science in Computer Science

HARD SKILLS

- Web Development
- Mobile App Development
- AI & Machine Learning
- Object-Oriented Programming
- Flutter (Dart)
- Firebase
- HTML
- CSS
- MySQL, SQLite
- Java
- Python
- Node.js & npm
- JavaScript
- Fundamentals Project Execution & Debugging
- Command Line Tools

DIANA.J

SOFTWARE DEVELOPER

PROFILE

Computer Science Graduate and Full Stack Developer, previously served as the Technical Head of the Computer Science Department. Skilled in Flutter, Java, Python, PHP, and HTML. Experienced in developing mobile and web applications with strong expertise in UI/UX Design, API Integration, and AI-powered solutions. Passionate about delivering scalable, efficient, and user-centric software solutions, and eager to contribute as a Frontend or Full Stack Developer.

CAREER OBJECTIVE

To secure a challenging role as a Software Developer / Full Stack Developer where I can apply my programming skills, project experience, and problem-solving abilities to build innovative and efficient software solutions.

PROFESSIONAL PROJECTS & EXPERIENCE

QR CODE GENERATOR & SCANNER SYSTEM | FLUTTER, HIVE, DATABASE MANAGEMENT

- Developed a Flutter-based QR Code Generation and Scanning application integrated with a secure database for storing and managing user email IDs. Implemented QR code creation, real-time scanning, email-based data retrieval, and secure database connectivity for efficient user authentication and information management. Designed an interactive and responsive UI for seamless QR processing across Android platforms.
- Key Skills:** Flutter, Dart, Hive/Database Integration, QR Code Generation & Scanning, API Integration, UI/UX Design, Authentication System, Data Management.
- ScanNova-pro project link

MINDNEST - AI MENTAL WELLNESS APP UI/UX DESIGN

- Designed a modern AI-based mental wellness app interface for self-care and mood tracking. Created user-friendly screens including mood dashboard, AI chatbot, meditation player, sleep analytics, and profile customization using clean layouts, glassmorphism effects, pastel gradients, and smooth navigation.
- Key Skills:** UI/UX Design, Figma, Wireframing, Prototyping, Glassmorphism, User Flow Design, Responsive Design
